Good afternoon,

The System Offices Staff Council has formed a committee to help System Offices employees meet needs that arise due to COVID-19.

Needs could include, but are not limited to:

- I am unable to physically pick-up grocery items.
- I am unable to physically pick-up supplies.
- I need infant formula for my child and cannot find it in stores.
- I'm overwhelmed and uncertain of emotional support resources available to me.
- I need to be connected with childcare options.

Please reach-out via our online form to report a need:

<https://www.tamus.edu/system/staff/staff-council/staff-council-covid-19-support/>

Our intention is to provide a platform for those needs to be communicated, and connect you with services that can help you meet the need.

Limitations:

- There may be needs that we can't meet.
- This service is limited to the household of System Offices employees only, during the local COVID-19 outbreak.
- Funds are not currently available to meet financial needs.
- The committee is able to assist with physical deliveries as needed, but is forbidden from any face-to-face interaction with a person or entry/contact with their home.
- As shelter-in-place and other similar situations arise, the Staff Council COVID-19 Support Committee's delivery services may be limited or unavailable.

We hope you stay safe and well,

Meagan Kuitu | Staff Council Chair
