---

System Offices Employees,

With the Thanksgiving Holiday just around the corner, many have plans to travel or spend time with their loved ones. System Offices leadership would like to offer Curative COVID testing to any System Offices employee who would like to be tested prior to Thanksgiving. This opportunity is extended to all SO employees, regardless of whether or not you are currently working from a System Offices facility.

If you would like to receive a COVID test before traveling, they will be available **outside the MCB under the breezeway** on **Monday, November 23<sup>rd</sup> from 8am-4pm** (picture of location attached).

**Reminders:**

- PLEASE REGISTER FOR YOUR APPOINTMENT! Go to [tamus.curativeinc.com](https://tamus.curativeinc.com) and select “**MCB System Only**” as the location.
- Use any browser except internet explorer to register for your appointment.
- Arrive at the breezeway within your appointment window, wear a mask to the test, and maintain physical distancing.
- Enter the testing area from the outside entrance (picture attached). Do not enter by way of the building.
- Do **NOT** eat/drink anything 20 minutes prior to test.
- Results of the Curative COVID test will be emailed to you within 48 hours.

All the best,

**Maeci Hoffman | Safety & Security Manager**
